

Circular No.0105

1 June 2020

TO ALL MEMBERS

Dear Sirs,

Notification of AIS monitoring for the entered vessels

On 14th May 2020, the U.S. government (the Department of State, the Treasury, and the Coast Guard) published specific “guidance” that P&I insurers around the world may wish to consider implementation. Therefore, we would like to inform you that in accordance with this “guidance”, we implement “AIS monitoring” for the entered vessels as follows.

- Port calls in sanctioned countries
- Abnormal navigation
- Manipulation and/or switching off a vessel's AIS transmitter
- Ship to ship operation in high risk areas

If we find out suspicious activities that can be regarded as the violation of sanctions during the monitoring process, we can request additional data from the members, insurance brokers, etc.

Yours faithfully,

THE CONTINENTAL STEAMSHIP OWNERS MUTUAL PROTECTING & INDEMNITY ASSOCIATION LTD
